

# TRAINING PROGRAMS

(Field, Classroom, Virtual – Basic to Advanced)

Midwest Technical Inspections is an industry leading loss control company. With 25 years of experience, we have developed comprehensive training modules for our internal and field staff. Training may be one of the most significant opportunities for any company to earn a maximum return on investment compared to other expenses. With our expansive resource materials from the hundreds of thousands of inspections completed, MTI is positioned to cover almost any subject desired from basic property to more complex categories such as workers compensation or products liability.

- Individual or Group Setting
- Sole Session on a Single Exposure or Multiple Sessions Crossing Several Lines of Coverage
- Classroom Session at Your Location or Ours or at a Local Third-Party Venue
- Instructor Led Virtual Training or Non-Instructor Led Option for Independent Learners

Training subjects include but are not limited to:

- Commercial Lines 101
- Commercial Cooking
- Garage Liability
- Contractors Liability
- Confinement Farming
- Workers Compensation
- Products Coverage
- Electrical & Heating
- Roof Inspections 101
- Solid Fuel Burning Devices

With all of our training programs, we offer our *Safety Net 800* program which allows students to call into our training staff anytime with any questions. This training follow-up avenue provides an excellent opportunity for your staff to verify their newly acquired knowledge.

Feedback from our sessions has been overwhelmingly positive:

*“The real-world examples used in the training helped bring perspective to the policy information I review day to day.”*

– Underwriter for a National Carrier

*“Well paced training segments provided excellent information and allowed for a Q&A session with detailed explanations.”*

– Loss Control Field Rep

We are accredited through Northern Illinois University Outreach and Continuing Education Units (CEUs) are available for all of the courses listed above.
